1) An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edward Kriegsman on 11/24/03.

The application has been amended as follows:

In claim 31, line 1 deleted "and" and inserted therefor --concentration is--. At line 2, deleted "are combined in a 1:10 ratio" and inserted therefor --is 10%--.

Amendment renders claim 31 consistent with specification page 5, line 30.

2) The following is an examiner's statement of reasons for allowance:

Applicant's amendment of 7/24/03 inserting "perfusion chromatography" in claims 8 and 18 has overcome prior art of record. This type of chromatography, described by Afeyan et al (5,019,270), differs from the Sepharose chromatography of Aybay et al and Zeng et al. Thus these references should not have been cited against claim 9 in the previous office action.

Further, examiner considers it would not have been obvious to reverse the order of steps taught by Aybay et al or Zeng et al, no matter what type of chromatography is used, since combining serum and media prior to chromatography would increase the amount of time and effort required to conduct chromatography.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3) Figure 1, attached to amendment of 7/24/03 has been entered in record. Formal drawing is required since that submitted is obviously informal – lettering too small and illegible.

4) Claims 24-26 and 28-30 have been rejoined.

5) Any inquiry concerning this communication or earlier communications from the examiner should be directed to David A Saunders, PhD whose telephone number is 703-308-3976. The examiner can normally be reached on Mon.-Thu., 8:00 am-5:30 pm and on alternate Fridays.
